ABOUT ME

Software Engineer with a Master's in Software Engineering, specializing in machine learning, computer vision, and data analysis. Experienced in building AI-driven systems with Python and modern web technologies, with a strong background in research-oriented problem-solving. Engaged with self-supervised learning, reinforcement learning, and AI analytics. Fluent in English, Chinese, and Urdu.

EDUCATION

Hohai University Nanjing | Nanjing, China

2022 - 2025

- Master's in Software Engineering
- Improved domain adaptation for time-series classification using self-supervised learning, reducing model training time by 15%.

Government College University Faisalabad | Layyah, Pakistan

2018 - 2022

- Bachelor's in Computer Science
- Developed a vehicle analytics system using computer vision, achieving 90% accuracy in real-time detection.

WORK EXPERIENCE

Research Assistant, Hohai University | Nanjing, China

2024 - 2025

- Built a self-supervised learning model for time-series classification, improving accuracy by 10%.

AI Intern | Muskeeter Tech

Jan 2026 - May 2026

- Engineered an end-to-end production-ready RAG application using FastAPI, LangChain, and a vector database to enable intelligent document search and Q&A, alongside supporting Python utilities for data preprocessing and API integration.

PROFESSIONAL SKILLS

Languages:

Python, C#, SQL, HTML, CSS

AI / ML:

PyTorch, TensorFlow, scikit-learn, OpenCV, NumPy, Pandas

LLMs & RAG:

LangChain, FastAPI, Vector Databases, RAG

Dev Practices:

Git, GitHub, OOP, Docker, Database Design

Tools:

VS Code, PyCharm, Visual Studio, RStudio, MS Office

CERTIFICATION

- Google AI Essentials | [Link](#)

LANGUAGES

- English: Fluent (Professional and Academic)
- Chinese: Conversational (HSK Level 3)
- Urdu: Native

HOBBIES

- Cooking
- Badminton
- Bike Riding
